Why work with me

What sets my work apart

I know the Gulf market

Most of my 4 years of experience has been with clients in Saudi Arabia and the Gulf, so I know what moves audiences there.

Every platform that matters in the Gulf

Snapchat, TikTok, Meta and Google. I pick platforms based on your product and where your customers are.

Tracking before any ad

I set up Pixel, GA4 and GTM from day one, so every riyal spent can be traced to what it brought in.

Measured in sales

My reports are built on customer cost, customer value and sales, not likes and views.

About me

Hi, I'm Raneem

I specialize in digital marketing and paid advertising. Over 4 years I have worked as a paid media manager and led a campaigns team. Most of my work has been with clients in Saudi Arabia and the Gulf, across e-commerce, real estate, education, services and hospitality.

What matters to me in every project is the real outcome: more sales and real customers, not just reach and engagement. That is why I always start with accurate tracking and tie every campaign to a clear goal the client can measure.

FAQ

Questions I often get

Which platform is right for my business?

It depends on your product and audience. Google when customers search for you, Meta to build demand, and Snapchat and TikTok for wide reach in Saudi Arabia. We decide together once I understand your business.

Do you work with Salla and Zid stores?

Yes. I work with Salla, Zid and Shopify, and connect tracking to the store so sales are measured correctly.

Why isn't cost per lead everything?

A cheap lead may not be a serious one. What matters is how many leads become real customers, and that is what I focus on with your sales team.

How do we work if I'm in Saudi Arabia?

I work remotely during Gulf business hours, and we stay in touch on WhatsApp or email.

What do you need from me to start?

Access to your ad accounts and your store or website, and a sense of your goals and budget. I handle the rest.
