What my clients say

★★★★★

“ Raneem worked on our campaigns and her work is excellent. She clearly knows what she's doing. Communication was easy, and she adapted the campaign setup to fit our store. This won't be the last time we work together.

What I do for your store

From the first ad to the sale

Tracking connected to your store

I set up Pixel, GA4 and GTM with Salla, Zid or Shopify, so every sale is credited to the ad that brought it.

Sales campaigns on 4 platforms

Meta, Google, TikTok and Snapchat, with budget going to whichever platform sells best.

Retargeting visitors

Ads for people who visited your store or added to cart without buying.

Messaging campaigns

For stores that sell through conversation, from the first question to the order.

Seasons

Ready for sales seasons

Seasons are the biggest sales periods of the year, and I prepare for them weeks ahead.

Ramadan & Eid

Campaigns that start before Ramadan, messaging that changes through the month, and Eid offers in the final week.

White Friday

Audience building before the season, offers launched on time, and retargeting people who didn't buy.

Saudi National Day

Offers and ads with a national theme, and content made for the occasion on Snapchat and TikTok.

Back to school

Campaigns for parents before the school year starts, for stores and education and registration centers.

FAQ

Questions store owners ask

Do you work with Salla and Zid stores?

Yes. I work with Salla, Zid and Shopify, and connect tracking to the store so sales are measured correctly.

Which platform is right for my store?

It depends on your product and audience. Google for people searching for it, Meta to build demand, and Snapchat and TikTok for wide reach in Saudi Arabia.

What do you need from me to start?

Access to your ad accounts and your store, and a sense of your goals and budget. I handle the rest.
